AddInfo Parameters

Additional payment information can be added to the Payture payment gateway response.

This feature is available for methods:

- **for Payture Api**: Pay, Pay3DS, Block, Block3DS, GetState, MobilePay, MobileBlock
- **for Payture InPay**: GetState
- **for Payture eWallet**: Pay — on Merchant side, PaySubmit3DS, GetState

To add additional parameters to the payment gateway response, contact the Payture support service support@payture.comand let us know the parameters that need to be added.

Format

Additional information is passed in nested AddInfo elements.

Example of api/Pay response with AddInfo elements:

```
<Pay OrderId="2d436b58-1c49-aa25-8137-ffdc3fb5210f" Key="Merchant" Success="True" Amount="12420">
    <AddInfo Key="AuthCode" Value="122938" />
    <AddInfo Key="RefNumber" Value="637176303771" />
    <AddInfo Key="CardHolder" Value="Ivan Ivanov" />
    <AddInfo Key="PaymentSystem" Value="MasterCard" />
    <AddInfo Key="PANMask" Value="411111xxxxxx0031" />
    <AddInfo Key="Compensation" Value="12360" />
    <AddInfo Key="BankHumanName" Value="TEST BANK" />
    <AddInfo Key="BankCountryCode" Value="US" />
    <AddInfo Key="BankCity" Value="" />
    <AddInfo Key="cardtype" Value="V_BUSINESS" />
    <AddInfo Key="externalmerchantorderid" Value="2d436b58-1c49-aa25-8137-ffdc3fb5210f" />
    <AddInfo Key="externalwallet" Value="None" />
    <AddInfo Key="generalfee" Value="60" />
    <AddInfo Key="is3ds" Value="False" />
    <AddInfo Key="orderdate" Value="20200220125920" />
    <AddInfo Key="ThreeDSType" Value="Version1" />
</Pay>
```
